STUDENT'S FEED BACK

INTRODUCTION

Curriculum overview is an explosive survey done by every student. The data on feedback analysis is analyzed and their suggestions are considered and actions were implemented for incorporation of changes in the curriculum. Feedback provided during formative assessment guides students to close the gap between their current and desired performance and enhances their learning and satisfaction. To get positive impact of feedback, it should be effective and timely. We have collected a feedback form from our Under and Post graduate students. The questionnaire consist of six questions related to curriculum design, Library, Laboratory availability and teaching methodologies etc.,

S.No	Curriculum Evaluation by student	Responses in %				
		Strongly Agree	Agree	Average	Disagree	Strongly disagree
1	Curriculum Design	53	62	0	0	0
2	Teacher and student's interactions	62	53	0	0	0
3	Library and Laboratory facilities	80	35	0	0	0
4	Teaching methodology/ICT facilities	55	60	0	0	0
5	Extension activities	60	55	0	0	0
6	Curriculum design to acquire placement aspects	65	50	0	0	0

STUDENTS FEEDBACK

INTRODUCTION

The data on feedback analysis were analyzed. Considering the suggestions of the alumni, students, staff members, employers, parents and industrial experts, actions were implemented for incorporation of changes in the curriculum. Feedback received from the faculty, alumni and students were discussed and analyzed. It was found that the curriculum was adequate, however few students have suggested about the necessity of employable opportunity in addition to skill development. Feedback provided during formative assessment guides the students to close the gap between their current and desired performance and enhances their learning and satisfaction. To get positive impact of feedback, it should be effective and timely. We have collected a feedback form from our Under and Post graduate students. The questionnaires consist of questions related to curriculum design, Library, Laboratory availability and teaching methodologies etc.,

STUDENTS FEED BACK

INTRODUCTION

Curriculum overview is an explosive survey done by every student. The data on feedback analysis is analyzed and their suggestions are considered and actions were implemented for incorporation of changes in the curriculum. Feedback provided during formative assessment guides students to close the gap between their current and desired performance and enhances their learning and satisfaction. To get positive impact of feedback, it should be effective and timely. We have collected a feedback form from our Under and Post graduate students. The questionnaires' consist of five questions related to curriculum design, Library, Laboratory availability and teaching methodologies etc.,

S.No	Curriculum Evaluation by student	Responses in %				
		Strongly Agree	Agree	Average	Disagree	Strongly disagree
1	Curriculum Aspect	71	25	4	0	0
2	Teacher and student's interactions	63	22	12	3	0
3	Library and Laboratory facilities	39	45	14	2	0
4	Teaching methodology/ICT facilities	48	32	16	4	0
5	Extension activities	65	20	13	2	0
6	Curriculum design to acquire placement aspects	56	32	12	0	0

ACTION TAKEN REPORT

YEAR	STAKEHOLDER	ACTION TAKEN
2022-2023	Inculcated the importance to participate in Extracurricular activities. Requested the HoD to increase the knowledge and skill based courses in our Department	Environmental studies was introduced as a course for all undergraduate students Co-curricular course was also introduced. Introduced a new courses which full fill the skill based knowledge.
