DEPARTMENT OF BIOCHEMISTRY

The Department of Biochemistry have organized an one day Lecture workshop on "Emerging Trends in e-Clinical laboratory system", on 13.02.2019. Dr.T.Nataraj M.D., PG.,Dib., Director admin, VMCH gave a lecture on the significance of biochemistry in various disciplines like medical, clinical and research field which is highly motivated the students. He also focused on the role of biomolecules. The guest gave the information about the advanced techniques available in the field of biochemistry and encourages the students. The session was highly interactive.

Dr.C.Ravikumar Managing Director, Roys Diagonistic laboratory who gave the lecture on urine analysis, sugar tests and the collection of Blood sampling and its analysis in the laboratory. His lecture also specifies the various section of laboratory and talks about the entry of patient, maintenance of report and the barcode system used in laboratory, color of tubes used in laboratory for collection of samples. He also taught the reporting manner of laboratory. His lecture motivated the students to arise the questions. The session is very useful to gain knowledge about the diagnosis methodology of disease which is experimented through blood. It is the good chance for the students to learn about liver disease, cardiovascular disease, kidney stone, Atherosclerosis and calcium disorders.

In the afternoon session WORKSHOP was conducted at APOLLO DIAGONISTICS, VMCH. The students visited the laboratory equipments such as Semi-Auto analyzer (Benaka), Electolyte analyser (medsource) Fully automated analyzer (Siemens) and the immunology and serology tools used in the laboratory . The electrolytes measured include sodium (Na+), potassium (K+), chloride (Cl-) and bicarbonate (HCO3- or CO2). Electrolyte analyzers are used in hospital and an automated analyzer is a medical laboratory instrument designed to measure different chemicals and other characteristics in a number of biological samples quickly, with minimal human assistance. These measured properties of blood and other fluids may be useful in the diagnosis of disease The Apollo Diagnostic technician demonstrated the handling methodology of the equipment followed by Dr.M.SAMUEL.,Manager operations, Apollo Diagonistics, VMCH presented power point presentation on opportunities of Biochemistry, application of laboratory equipments at pharmacy seminar hall.
